**Warning**

**TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THE APPLIANCE TO RAIN OR MOISTURE.**

To avoid electrical shock, do not open the cabinet.

Refer servicing to qualified service personnel only.

The AC cord must only be changed at qualified service facility.

- This appliance is classified as a CLASS 1 LASER product.
- The CLASS 1 LASER PRODUCT MARKING is located on the rear panel.
- This product contains a low power laser device. To ensure continued safety, do not remove any cover or attempt to gain access to the inside of the product. Refer all servicing to qualified personnel only.

**Caution**

In case of malfunction due to electrostatic discharge, reset the apparatus by disconnecting from mains supply.

---

**Recharging Battery Caution**

- Do not use any unauthorized parts.
- Use the authorized AC adapter when recharging battery.
- Do not expose to high temperature above 60°C
- Do not attempt to dismantle or modify the unit.
- Excessive impact may cause the unit to malfunction.
- Do not incinerate.
- Do not disassemble; dispose of properly.

---

**Maintenance and care**

**Caring for the player**

- “The apparatus shall not be exposed to dripping or splashing” and that no objects filled with liquid shall be placed on the unit.
- This kind of electronic products should never be subjected to extreme temperatures or high humidity.
- If anything falls into the cabinet, unplug the unit and have it checked by qualified personnel before operating it any further.
- When the lens in the pick-up gets dirty, malfunctions including the impossibility of playback may occur. The lens should be cleaned using a commercially available camera lens blower, etc. Do not touch the lens to prevent damaging the mechanism. Also do not use a lens cleaner or disc cleaner product.
- Never play a cracked or warped disc.

**Cleaning the Unit**

- To prevent fire or shock hazard, disconnect your unit from the AC power source when cleaning.
- The finish on your unit may be cleaned with a dust cloth and cared for as other furniture. Use caution when cleaning and wiping the plastic parts. Mild soap and a damp cloth may be used on the panel.
- Do not use volatile solvents such as alcohol, paint thinner, gasoline, or benzine, etc.

**Condensation**

- If the unit is brought directly from a cold to a warm location, moisture may condense inside the DVD player and cause damage to the lenses. When you first install the unit, or when you move it from a cold to a warm location, wait for 30 minutes before operating the unit.

**Disconnect power**

- If you are not going to use the player for a long time, be sure to disconnect the power converter from the wall outlet.

To disconnect the AC power cord (main leads), grasp the plug itself, never pull the cord.

---

Before using the player, please ensure that the local AC voltage is suitable for this unit.
Important Safeguards

1. Power sources — Only use the AC/DC power converter that is packed with the unit. Using other adapters could seriously damage the unit.
2. Power-cord protection — Power Supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. Pay particular attention to cords at plugs, convenience receptacles, and the point where they exit from the unit.
3. Enclosure removal — Never remove the enclosure.
4. Drop — Do not drop the unit or apply strong shock to it.
5. Ventilation — Avoid hindering the ventilation of the unit, when playing in the car with pouch, ensure is kept the pouch opening.
6. Abnormal smell — If an abnormal smell or smoke is detected, immediately turn the power OFF and pullout the power cords. Contact your dealer or nearest service center.
7. Heat—Avoid placing the unit under direct sunlight or near a source of heat such as heating equipment. Particularly, never leave it in an automobile or on the dashboard.
8. Temperature — The unit may not function properly if used at extremely low, or freezing temperatures. The ideal ambient temperature is above +5°C(41°F).
9. Water and moisture — The unit should not be used near water -for example, near a bathtub, washbowl, kitchen sink, laundry tub, in a wet basement, or near a swimming pool, etc.
10. Vibration — Avoid placing the unit on an unstable place such as a shelf or in a place subject to vibrations.
11. Magnetic fields — keep the unit away from sources of magnetic fields such as TV sets, speaker systems, radio, motorized toys or magnetized objects.
12. Nonuse periods — The power cord of the unit should be unplugged from the outlet when left unused for a long period of time.
13. Damage requiring service-The unit should be serviced by qualified service personnel when:
   A. The power-supply cord or the plug has been damaged.
   B. Objects have fallen, or liquid has been spilled into the unit.
   C. The unit has been exposed to rain.
   D. The unit does not appear to operate normally or exhibits a marked change in performance.
   E. The unit has been dropped, or the enclosure damaged.
14. Service — The user should not attempt to service the unit beyond that described in the operating instructions-All other servicing should be referred to qualified service personnel.
15. CAUTION — TO PREVENT ELECTRIC SHOCK DO NOT USE THE AC PLUG WITH AN EXTENSION CORD, RECEPTACLE OR OTHER OUTLET UNLESS THE BLADES CAN BE FULLY INSERTED TO PREVENT BLADE EXPOSURE.

Notes on using through car stereo:

In case of abnormality such as smoke production, immediately unplug the car adaptor from the cigar lighter socket. Do not leave the products or batteries in the car.
Getting started

Unpacking

Unpack the unit and make sure that all accessories are put aside so they will not be lost. We recommend that you retain the original carton and packing materials for use should you transport or ship the unit in the future.

HOW TO MAKE YOU PLAYER STAND
Follow the illustration below to make your player stand.

Pull out the stand gently at bottom of the unit.

NOTES:
To take the function effect by the unit control buttons, after press and release the button on each time.
(From button no. 11 -13, 16 - 18, 22 - 25, )
Power Sources

Battery installation (remote control unit)
1. Remove the battery cover.
2. Insert one battery (CR 2025) making sure the polarity (+ / –) matches the marks inside the unit.
3. Replace the cover.
   Do not attempt to recharge, short-circuit, disassemble, heat or throw the batteries into the fire.

Using AC Adapter for Player
Insert the DC plug at the end of the adapter cord into the DC IN jack on the left side of the player. Then plug the other end into an AC wall outlet.

Notes:
- Only use with the supplied AC adapter. Using with other AC adapter could be damaged.
- Remove both DC plug & AC-IN plug, to disconnect the AC adapter when not necessary.

Charging the Battery
Unit has build-in NiMH battery, then refer the step of “Using AC Adapter for player” to connect power converter.

Notes:
- For the kind of Ni-MH rechargeable battery, it will not be fully charged when a battery to be charged first time, please note that the discharging time will be short.
- The battery will be operated normally with normal capacity after 4~5 times of charging and discharging. It is not a defect and abnormal battery.
- After a period of storage, or not use for a period, it will require users to repeat above mentioned steps to get the battery back to normal condition.
- The battery is fully charged for approximately 4~5 hours after the AC adaptor is connected.

Battery is charging the CHARGE indicator on the left will light on RED. When charging is completed, the FULL indicator will light on GREEN.

Notes:
- Disconnect the AC adapter plugs from both the battery and the AC outlet, when charging is completed or not necessary.
- Battery recharge circuit operates in OFF mode and STANDBY mode. But Switch off the unit for battery recharge is recommended.
- When battery is fully charged and released from unit, the CHARGE indicator will light on RED, it means the charge circuit is ON.

Battery Low Indication
When using the rechargeable battery to playing and the battery is nearly exhausted, the player front “STANDBY” indicator will blinking. In a while, the power will be turned off automatically. Refer “Charging the Battery” to recharge the battery.

Using the Car Adapter (For cars with Negative grounding only)
Plug the small end of the car adapter into the DC IN jack and then plug the other end into the cigarette lighter socket of the car. This indicator lights when the power is on.
Basic Playback

DVD, VCD, Audio CD, MP3-disc Starting playback

1. To power on the unit. Slide the POWER knob ON at the unit top then the unit will turn on.
   Notes: Selection kind of power source, please refer portion of POWER SOURCE
2. Slide the LINE SELECT IN/OUT to the “OUT” position.
3. Press PANEL OPEN KNOB to open up gently (OPEN appears on screen) and place the disc with the label side facing front on the disc tray.
   Notes: Hold the disc without touching either of its surfaces, placed with the printed title side facing up only.
4. Push down the front edge on the panel, to close secure. The disc will start playback automatically.
   Notes:
   - Loading the disc in any source mode will switch from the current mode to disc mode.
   - For MP3 disc, the disc reading time may exceed a little bit longer, due to the large number of songs complied into one disc.
   If playing DVD disc a MENU appears on the TV screen:
   Press the ( / / / ) Arrow buttons, to select the desired item, then press the ENTER button. Playback of the selected item will start.
   Note: For more details, please refer to the jacket or case of the disc. If the password is set and the inserted disc is within the Parental Ratings set, then the Password screen will appear, prompting you to enter the password.
   If playing MP3-disc, please refer portion of “MP3 Basic Operation”.
5. Stopping play
   Press the STOP button once and Press PLAY to Continue appears on the screen. The player memories the point where you stopped. If you press the PLAY button again, play starts automatically from the point where you stopped.
   (Resuming Playback)
   If the STOP button is pressed twice, the screen shows STOP(■) then the player stops completely.
   Note: Some discs may not start resuming playback.
6. Adjust the volume knob to a comfortable level.
   Note: When in play mode, the “STANDBY” indicator is blinking, the battery is nearly exhausted. Refer “POWER SOURCE” to recharge the battery.
Connections

Connect headphones to player headphone jack.
CAUTION: Listening at high power for a long moment could damage user's ears.

Connect the DC plug
Connect the DC plug at the end of the adapter cord, or connect the Car Adapter into the DC IN jack, then plug the other end into the car cigarette lighter socket.

SYSTEM CONNECTION
Use audio cable (Red / White), video cable (Yellow) to connect from player to TV set and amplifier.

CONNECT THE PLAYER TO TV SET BY AUDIO / AV CABLE
Use audio cable (Red / White), video cable (Yellow) to connect the player and TV set.

CONNECT THE PLAYER TO TV SET BY S-VIDEO CABLE
Use S-Video cable to connect the player and TV set.

CONNECT OTHER MEDIA TO THE PLAYER
Use audio cable (Red / White), video cable (Yellow) to connect from other media to player.
Notes:
• Slide the Line Select switch to “IN”

Notes for cable connections:
• Audio cable (one end with small plug, and two end with Red / White RCA plug.)
• Video cable (one end with small plug, and one end with Yellow RCA plug.)
• S-Video cable (one end with small plug, and one end with S-Video plug.)

Turn off the power and keep DC cord pulled out from the adapter when connecting the system.
Basic operation

Panel Key Lock
Press KEY LOCK Button on the remote control: “Key Lock On” Appears on TV screen, then the function keys on main unit are disable except power button. To make all buttons available again, press KEY LOCK button again.

1 SKIP REV(>>) and FF(>>) button:
Press these buttons to go to the previous/next chapter (DVD) or track (CD).

2 SLOW/F, SLOW/R button:
Press this button to select slow-motion forward or rewind playback at 1/2, 1/4, 1/8, 1/16 normal speed without sound.
NOTE: This player does not support slow-motion for playback audio CD & MP3-disc, and slow-motion re- wind (SLOW/R) does not support playback VCD disc and “” will appear on the TV screen if you press SLOW/R button when playing a VCD disc.

3 PAUSE/STEP ( ) button: Press button once to pause the picture.
Repeatedly press the PAUSE/STEP ( ) button to play the DVD one frame at a time.

4 SEARCH REV(<<) and FF(>>) button: These buttons allow searching ahead/back at 4-level speeds 1st press: x2 ➔ 2nd press: x4 ➔ 3rd press: x8 ➔ 4th press: x16
Noted: Press the PLAY ( ) button to resume normal playback.

Title/Chapter Search
Use this feature to directly go to a specific title and/or chapter.
Press the SEARCH button once. Press the ( , ) buttons to select the TITLE, then use the numeric buttons to select the desired title number.
Press the ( , ) buttons to select the CHAPTER, then use the numeric buttons to select the desired chapter number.

Title/Time Search
Use this feature to directly go to a specific title and/or time.
While in the Stop mode, press the SEARCH button twice. Press the ( , ) buttons to select the TITLE, then use the Number buttons to select the desired title number.
Press the ( , ) buttons to select the TIME, then use the Number buttons to select the desired time.
NOTE:
• If the Search feature is attempted in the Play mode, then you can only go to a specific chapter or time, you cannot change the title number.
• If you enter a time that exceeds the time limit of the DVD, then “INPUT INVALID” will appear, and you must try again.
• Repeat may not work properly with some discs.
• When play VCD, the SEARCH feature can only use Number buttons to select desired track or time.
Basic operation (continue)

**REPEAT PLAYBACK MODE BUTTONS**
The repeat functions that you can enjoy are dependent on the disc types played.
DVD: Title repeat, chapter repeat and given portion repeat.
VCD / CD: All tracks repeat, single track repeat and given portion.

**REPEAT button**

**DVD disc:**
While in the Playback mode, press the **REPEAT** button once; "3 CHAPTER" will appear briefly on the TV screen and the currently playing Chapter will repeat continuously.
While in the Playback mode, press the **REPEAT** button a second time; "3 TITLE" will appear briefly on the TV screen and the currently playing Title will repeat continuously. Press the **REPEAT** button once more to cancel Repeat mode.

**CD / VCD disc:**
To Repeat play a track, simply select the track as described on the previous page, then press the **REPEAT** button once; "3 TRACK" will appear on the TV screen and the unit will repeat the selected track continuously until the **STOP** button is pressed.
To Repeat play all tracks on a CD, press the **REPEAT** button a second time; "3 ALL" will appear on the TV screen and the unit will repeat the CD continuously until the **STOP** button is pressed.
To cancel Repeat play, press the **REPEAT** button until "REPEAT OFF" will shown on the TV screen.

**A-B REPEAT button**
Note: MP3 discs does not support this function.

**DVD disc:**
- You can repeatedly play a given portion by operating as following:
  - To press this button once to define the portion head.
  - To press this button again to define the portion toe. Then the portion will be played repeatedly.
- To press this button again to return to normal playback.

**CD / VCD disc:**
While playing back a CD, this unit can repeatedly play back a specific section.
While in the Repeat mode, press the Repeat **A-B** button to define where you want the section to start. Press the Repeat **A-B** button again to define where you would like the section to end, the unit will then play the selected area continuously.
To cancel A-B Repeat mode, press the **A-B** button again until the icon disappear on screen.

**Random Playback**
Press the **RANDOM** button once and "RANDOM" will appear on the TV screen. Press the **PLAY** button and the unit will play all the tracks back in random order. After 20 tracks have been randomly played, the unit will automatically stop playing and enter the Stop mode. To cancel Shuffle, press the **RANDOM** button a second time "RANDOM OFF" will shown on the TV screen.
Note: When playing CD, MP3, or others audio media disc, you can press the "SCREEN ON / OFF" button, to turn off the TFT screen temporary, it will save more power when using rechargeable battery for playing.

**IMPORTANT**
When the " symbol appears while pressing a button, this means that the corresponding function cannot be performed either on the disc inserted, or in the selected mode.
Basic operation (continue)

Programmed Playback (DVD/CD/VCD)

Note: MP3 discs does not support this function.
This unit has a 20 track programmable memory that allows you to program up to 20 tracks on any disc for playback in any desired order. You may program 20 different tracks or you may also program certain tracks to play more than once.

To perform programmed playback, proceed as follows:
1. While in the Stop mode, press the PROGRAM button, the Program menu will appear on the TV screen.
2. Press the Numeric buttons to input 2 numbers for each program track: one for title, one for chapter. After input 2 numbers, the cursor will automatically jump to the next program track for input another numbers.
3. Repeat step 2 until all desired title & chapters have been programmed (up to 20). You can repeat a title & chapter more than once if desired.
4. Press the ( , , , ) button to select "START" position.
5. Press the PLAY (►) button to begin programmed playback.
Playback will begin on the first title/chapter that you programmed and the player will continue to play all of the tracks that you programmed in the order in which you programmed them.

FOR VCD / CD:
Select the track to be memory by using the Numeric buttons. The unit will automatically go to the next track to allow you to program.

FOR DVD:
Select the TITLE/CHAPTER to be memory by using the number buttons. The unit will automatically go to the next track to allow you to program.

Press the STOP (■) button to stop programmed play.
TO CANCEL THE PROGRAM FUNCTION:
To cancel the Program function, press the STOP (■) button twice, or press the OPEN/CLOSE button.
Advanced Playback mode

Audio menu
Press AUDIO MENU button, you can change the audio language from the one selected at the initial settings to a different language, if available.

DVD Menu
Press the DVD MENU button, and the Main Menu of the disc will appear. Use the ( , , , ) button to select the desired option, and then press the ENTER button.
This is not available on all discs.

Subtitle Menu
Press the SUBTITLE MENU button to select a subtitle language, and to turn the subtitle menu on /off. This feature is not available on all discs.

Title Menu
Press the TITLE MENU button and the Title Menu of the disc will appear. Use the ( , , , ) button to select the desired option, and then press the ENTER button.
This is not available on all discs.

Audio Mode (Audio CDs only)
While playing an audio CD (not DVD), you can cycle between the audio modes as follows:
Press the AUDIO MODE button to cycle through the audio modes. The audio modes vary depending on the disc inserted, but include MONO LEFT, MONO RIGHT, MIX MONO, STEREO, etc. “DISC NOT SUPPORT” will appear if the disc does not support audio mode changing.

3D Sound

- 3D audio post-processing will give a multichannel effect when using only 2 speakers. This only works with discs encoded with Dolby, Pro Logic, Dolby Digital and DTS multi-channel audio tracks.
Press the 3D button repeatedly to achieve the highest quality sound. The following surround effects will appear on the TV screen when you press the 3D button repeatedly:
SURROUND ROCK • SURROUND POP • SURROUND LIVE • SURROUND DANCE • SURROUND TECHNO • SURROUND CLASSIC • SURROUND SOFT • SURROUND OFF (return →)

DO NOT USE the feature if connecting to more than two speakers.
Turn off the TV surround sound and other surround sound effects when using this surround effect.

MUTE

Troubleshooting

No power
- Insert the AC power plug securely into the power outlet.
- Condensation has formed: wait about 1 to 2 hours to allow the player to dry out.
- This player cannot play a disc other than DVD, Video CD and CD.
- The disc may be dirty and may require cleaning.
- Ensure that the disc is installed with the label side up.

No picture.
- Ensure that the equipment is connected properly.
- Ensure that the input setting for the TV and stereo system are correct.
- Ensure that the equipment is connected properly.

Picture is distorted during rapid advance or rapid reverse.
- The picture will be somewhat distorted at times: this is normal.

No rapid advance (or rapid reverse play).
- Some discs may have sections which prohibit rapid advance (or rapid reverse.)

No 4:3 (16:9) picture.
- Choose the correct setup “TV SCREEN” item which matches the TV set used.

No operations can be performed with the remote control unit.
- Check the batteries are installed with the correct polarities (+ and –).
- The batteries are exhausted: replace them with new ones.
- Point the remote control unit at the remote control sensor and operate.
- Operate the remote control unit at a distance of not more than 7 m from the remote control sensor.
- Remove the obstacles between the remote control unit and remote control sensor.

No key operation (by the main unit and/or the remote control unit) is effective.
- Press POWER to set the player to the standby mode and then back to ON.
- Alternatively, press POWER to set the player to the standby mode, disconnect the power plug and then reconnect it. (The player may not be operating properly due to lightning, static electricity or some other external factor.)

Play does not start even when title is selected.
- Confirm the RATING LEVEL setting.
- If the audio soundtrack and/or subtitle language does not exist on the language selected at the initial settings will not be seen/heard.

No subtitles.
- Subtitles appear only with discs which contain them.
- Subtitles are cleared from the TV monitor, Perform the steps on portion SUBTITLE to display the subtitles.

Alternative audio soundtrack (or subtitle) language fail to be selected.
- An alternative language is not selected with discs which do not contain more than one language.

Angle cannot be changed.
- This function is dependent on software availability. Even if a disc has a number of angles recorded, these angles may be recorded for specific scenes only.

The password for rating level has been forgotten.
- Please contact your local sales dealer.

No menu play.
- This function works only for Video CDs with playback control.
- When AC-DC adaptor plug-in a while, FULL and CHARGE indicators blink, then CHARGE indicator light on RED, but rechargeable battery is released.
- It is a system test for recharge circuit, and then the circuit is powered ON, which is not a malfunction.
### Disc types you can play:

<table>
<thead>
<tr>
<th>Disc Type</th>
<th>Audio &amp; Video</th>
<th>Size</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>DVD</strong></td>
<td>Audio &amp; Video</td>
<td>Disc size 12cm</td>
<td>Single side, single layer / single side, double layer PAL and NTSC DVD disc. Playback time 135min - 240min max.</td>
</tr>
<tr>
<td><strong>Compact DISC</strong></td>
<td>Audio &amp; Video</td>
<td>Disc size 12cm / 8 cm</td>
<td>SVCD, CD and VCD disc. Playback time 74min. / 24min. max.</td>
</tr>
<tr>
<td><strong>Compact DISC</strong></td>
<td>Audio &amp; Video</td>
<td>Disc size 12cm / 8 cm</td>
<td>CD disc. Playback time 74min. / 24min. max.</td>
</tr>
</tbody>
</table>

**Note:**

- Only the above types of discs can be played on this unit.
- DVD-ROM, CD-ROM, CDV, etc. cannot be played.
- Some CDR, CDRW disc cannot be played depending on the condition of the player and the disc.
- This unit is to be used exclusively with the NTSC or PAL colour system. SECAM system discs cannot be used with this unit.

**D V I D d i s c**

- DVD discs are divided into titles, and the titles are subdivided into chapter.

**M u s i c C D  d i s c**

- Music CD discs are divided into tracks.

**MP3**

- MP3 is the abbreviation of “MPEG 1 Audio Layer 3” MPEG Audio is a compression specification that compresses the audio portion only. This image compression method is used in DVD etc. The audio data has been compressed into about 1/10.

**Notes on handling discs**

- Do not scratch discs.
- Do not expose the disc to direct sunlight, high humidity, or high temperatures for extended periods of time.
- Discs should be returned to their cases after use.
- Do not apply paper or write anything on the disc surface.
- Handle the disc by its edge. Do not touch the playing surface (glossy side).
- Fingertips and dust should be carefully wiped off the playing surface of the disc with a soft cloth.

**Disc Cleaning**

- Never use chemicals such as aerosol cleaners, benzene, anti-static liquids or any other solvent for cleaning discs. When cleaning, wipe gentle with a soft damp (water only) cloth from the center to the edge, avoiding circular motions, which could cause scratches and interference during playback. Wipe in a straight motion from the centre to the outside of the disc.
