WARNING:
TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THE APPLIANCE TO RAIN OR MOISTURE.

SAFETY INSTRUCTIONS

1. Read instructions - All the safety and operating instructions should be read before the appliance is operated.
2. Retain instructions - The safety and operating instructions should be retained for future reference.
3. Head Warnings - All warnings and cautions on the appliance and in the operating instructions should be adhered to.
4. Follow instructions - All operating and use instructions should be followed.
5. Water and Moisture - The appliance should not be used near water, e.g. near a bathtub, washbowl, kitchen sink, laundry tub, in a wet basement, or near a swimming pool or the like.
6. Ventilation - The appliance should be situated so that its location or position does not interfere with its proper ventilation. For example, the appliance should not be situated on a bed, sofa, rug or similar surface that may block the ventilation openings, or placed in a built-in installation, such as a bookcase or cabinet, that may impede the flow of air through the ventilation openings.
7. Heat - The appliance should be situated away from heat sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.
8. Power Sources - The product should be operated only with the type of power supply indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operation instructions.
9. Power-Cord Protection - Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the appliance.

10. Nonuse periods - The power cord of the appliance should be unplugged from the outlet when left when left unused for a long period of time.

11. Object and Liquid Entry - Care should be taken so that objects do not fall and liquids are not spilled into the product case through product openings.

12. Damage Requiring Service - Unplug this product from the wall outlet and take it to qualified service personnel under the following conditions.
   a) When the power-supply cord or plug is damaged.
   b) If liquid has been spilled into, or objects have fallen into the product.
   c) If the product has been exposed to rain or water.
   d) If the product does not operate when used according to the operating instructions.
   e) If the product has been dropped or damaged in any way.

13. Servicing - The user should not attempt to service the product beyond that described in the operating instruction. All servicing should be referred to qualified service personnel.

**CAUTION**

Invisible laser radiation will be emitted when the product is open and interlocks are defeated. Do not defeat the safety interlocks.

USE OF CONTROLS, ADJUSTMENTS, OR PERFORMANCE PROCEDURE HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE

21. USB Jack
POWER SUPPLY

Operate by DC

Batteries (not included)
Open the battery compartment and insert eight batteries, UM-2 or C-cells, (preferably Alkaline) with the correct polarity as indicated by the "+" and "−" symbols inside the compartment.
Incorrect use of batteries can cause electrolyte leakage and will corrode the compartment or cause the batteries to burst. Therefore:
• Do not mix battery types: e.g. alkaline with carbon zinc. Only use batteries of the same type for the set.
• When inserting new batteries, do not try to mix old batteries with the new ones.
• Remove the batteries if the set is not to be used for a long time.

Unit power supply (mains AC 230V/50Hz)
1. Check if the power voltage, as shown on the type plate located on the bottom of the set, corresponds to your local AC power supply.
2. Connect the power cord to the AC MAINS inlet and the wall outlet. The power supply is now connected and ready for use.
3. To switch off completely, unplug the power cord from the wall outlet.

Basic Function
Switching the Function Switch to OFF position to save energy
Whether you are using mains or battery supply, to avoid unnecessary energy consumption always adjust the source selector to OFF.

General operation
1. To select your sound source adjust the source selector to CD/MP3/USB/ RADIO/ AUX/ OFF.
2. Adjust the sound with the VOLUME.
3. To switch off the set, adjust the source selector to OFF position.

RADIO OPERATION
Radio reception
1. Slide the Function selector to RADIO.
2. Slide the BAND selector to a desired setting - AM/FM MONO/FM ST.
3. Rotate the TUNING control to find the desired stations.
   NOTE: If the BAND selector is set to the FM stereo position and once you have tuned to an FM stereo station, the FM stereo LED indicator will light.
4. When you have finished listening, slide the POWER OFF/AUX/RADIO/CD MP3 selector to the POWER OFF position to shut the power off.
For better reception
- For FM, pull out the telescopic antenna. Incline and turn the antenna. Reduce its length if the signal is too strong (very close to a transmitter).
- For AM the set is provided with a built-in antenna so the telescopic antenna is not needed. Direct the antenna by turning the whole set.

CONDENSATION
Condensation occurs:
- When the unit is brought from the outdoors into a warm room, or if it is in a cold room which is heated quickly.
- In the summer, if the unit is moved suddenly from an air-conditioned room or car to a hot or humid location.
- Should condensation occur, the product may not operate properly. When the product is exposed to temperature extremes, wait for 1-2 hours (to allow the internal parts to adjust to the surrounding temperature) before use.

HANDLING A COMPACT DISC
Always protect a disc against scratches, soil, dust, etc. If a disc is treated with reasonable care, wiping off the disc with a soft cloth should retain its original sound quality. Discs should be retained in their original case during periods of non-use.
- Handle a disc only by its edges. Do not touch the surface or rainbow-colored side of the disc.
- Handle a disc as shown in the two illustrations indicated.
- Use a soft cloth to wipe a disc clean. Do not use benzene, thinner, or other chemical cleaners to clean the disc as damage may result. A disc should always be wiped in a straight line from its center to its edge. Never wipe a disc in a circular motion.
- Do not expose a disc to direct sunlight, high humidity, or high temperatures for extended periods of time. Do not place the disc on other equipment or near any heat source.
- Dust on the pickup lens can lead to erratic operation and interruption of the sound during play. To clean the pickup lens, open the disc compartment and blow the dust off. Using a camera lens blower (available at most camera stores)
- Note: Do not touch the surface of the lens. Do not allow any liquids on the inside of the product.
- To clean the CD player cabinet, use a soft and damp cloth to wipe off the exterior surface. Never use benzol, benzene, or other strong chemical cleaners, as these could damage the finish.

DO:

DO NOT:
**CD Disc Section**

Playing a Disc
1. Open the CD door.
2. Hold the disc with the label side facing up and press it onto the spindle until it clicks into place.
3. Slide the Function Switch to the “CD/MP3/USB” position. The disc will rotate for a few seconds, the total number of tracks will be indicating on the LCD display. Adjust the volume as desired.
4. Press PLAY/PAUSE to start playing.
5. Press the PLAY/PAUSE again to stop playing temporarily. The PLAY indicator will begin to flash. Resume normal play by pressing the PLAY/PAUSE button again.
6. To stop playback, press the STOP button. The total number of tracks will be shown on the display.

**TRACK SEARCH**

Press the F.FWD button to skip to the next track on the disc.
Press the REW button skip to previous track.

**FORWARD/REVERSE SEARCH**

Press and hold the F.FWD or REW button during play to scan the disc at high speed. When the desired section of the disc is found, release the Button and normal play will resume.

```
F.FWD --------------- Forward
REW --------------- Backward
```

Press and hold the F.FWD button while playing to scan the current track forward at high speed.
Press and hold the REW button while playing to scan the current track backward at high speed.

**PROGRAM PLAY**

The tracks on the disc can be programmed to play in any order (up to 20) tracks can be programmed.
1. Press the PROG button while in stop mode. Program number ‘P01’ will flash and shown in the display.
2. Press the F.FWD or REW buttons to select the first track to be programmed.
3. Press the PROG button, The first track number is now stored into memory, and the program number changes to “P02”, waiting for your next selection.
4. Repeat steps 2 and 3 to program additional tracks.
5. After programming is finished, press the Play/Pause button, and program play begins from the first programmed track. The player stops automatically after all programmed tracks have been played.
**Single track repeat**
Press the REP/RANDOM button once during play. The REP sign will show on the LCD display. Press the F.FWD or REW button to select a track to repeat. This track will then play repeatedly until you press the STOP button.

**All track repeat**
Press REP/RANDOM button twice. The REP sign will show on the LCD display. All tracks will keep playing in sequence and repeat until you press the STOP button.

**Random Function**
Press REP/RANDOM button third time, all the tracks will play randomly. The RAND sign will show on the LCD display.

To resume, press REP/RANDOM button again.

**Playing a MP3 Disc**
Note: As MP3 Disc has large capacity, disc assesses time is a little longer.
1. Open the CD door.
2. Hold the disc with the label side facing up and press it onto the spindle until it clicks into place
3. Slide the Function Switch to the “CD/ MP3/ USB” position. The disc will rotate for a few seconds, the total number of tracks will be indicated on the LCD display. Adjust the volume as desired.
4. Press PLAY/PAUSE to start playing.
5. Press the PLAY/PAUSE again to stop playing temporarily. The PLAY indicator will begin to flash. Resume normal play by pressing the PLAY/PAUSE button again.
6. To stop playback, press the STOP button. The total number of tracks will be shown on the display.

**Repeat playing function**
**Single track repeat**
While in play mode, Press the REP/RANDOM button once to repeat the current track. The REP sign will show on the LCD display.

**Single catalog track repeat**
While in play mode, press the REP/RANDOM button twice, The FOLDER REP sign will show on the LCD display. All tracks in the current catalog will be repeated.

**Whole disc repeat**
While in play mode, Press the REP/RND button three times, The REP ALL sign will show on the LCD display. All tracks on the disc will play repeatedly.

**Random Function**
While in play mode, Press REP/RND button four times, all the tracks will play randomly. The RAND sign will show on the LCD display.
To resume, press REP/RND button again.
ALBLUM SETTING
Press the “FOLDER UP” on the unit to select the desired album
Note: this function is only applying in the MP3 disc which had contained the song by difference Folder type. Selecting tracks to playback from the album.

PROGRAM PLAY
The tracks on the disc can be programmed to play in any order (Up to 20 tracks can be programmed).
Note: this can only be done while in stop mode

1. Press the “PROG.” button while in the stop mode. “P01” will flash and “PROG” LED indicator will flash too.
2. Press FOLDER UP BUTTON “F+” to select the desired album, and press “F.FWD” and “REW” to select the desired tracks in the album, then press “PROG.” to stored into the memory.

Congratulations! You have made an excellent choice with the purchase of this quality product. Our commitment to quality also includes our service. Should you, contrary to expectations, experience defects due to manufacturing faults during private use within 36 months of the date of purchase we shall be liable for warranty in accordance with statutory warranty regulations provided that:

- the device was not put to any use other than the intended
- was not overloaded
- was not used with the wrong accessories
- repairs were not carried out by any other than the authorized workshop

The warranty certificate is only valid in connection with the receipt. Please keep both in a safe place. This warranty does not affect your statutory rights.

This purchase is guaranteed for a period of three years beginning on the day of purchase. Keep your purchase receipt safe as proof of date of purchase. The guarantee can only be extended for the duration of any repair required.

During the warranty period defective devices can be sent freight prepaid to the service address stated on the back cover of this document. We will, at our discretion, either repair or exchange the device in accordance with warranty legislation.

Please enclose the following when sending your product in for repair:
1. Receipt (proof or purchase)
2. This warranty certificate with the fault report form overleaf complete with your name, contact details and fault description.

If the original receipt is not enclosed the repair will be charged in all cases. After the warranty has expired you can still send defective devices for repairs freight prepaid to the address stated below. Quotes as well as repairs after the warranty period period are to be paid for in all cases.

Ensure that the product is sent well packed as no responsibility can be accepted for items lost or damaged in transit.

This warranty does not affect your statutory rights.
