Important Safety Instructions

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

The lightning flash with arrowhead symbol within an equilateral triangle intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

1. READ INSTRUCTIONS - All the safety and operating instructions should be read before the product is operated.

2. RETAIN INSTRUCTIONS - The safety and operating instructions should be retained for future reference.

3. HEED WARNINGS - All warnings on the product and in the operating instructions should be adhered to.

4. FOLLOW INSTRUCTIONS - All operating and use instructions should be followed.

5. CLEANING - Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a soft dry cloth for cleaning.

6. ATTACHMENTS - Do not use attachments not recommended by the product manufacturer as they may cause hazards.

7. WATER AND MOISTURE - Do not use this product near water—for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.

8. ACCESSORIES - Do not place this product on an unstable trolley, stand, tripod, bracket, or table. The product may fall, causing serious injury to a child or adult, and serious damage to the product.

Use only with a cart, stand, tripod, bracket, or table recommended by the manufacturer, or sold with the product. Any mounting of the product should follow the manufacturer’s instructions, and should use a mounting accessory recommended by the manufacturer.

A Product and Cart Combination Should Be Moved with Care—Quick stops, excessive force and uneven surfaces may cause the product and cart combination to overrun.

9. VENTILATION - Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to protect it from overheating, and these openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product should not be placed in a built-in installation, such as a bookcase or rack, unless proper ventilation is provided or the Manufacturer’s instructions have been adhered to.

10. POWER SOURCES - This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult a professional electrician or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.

11. POWER-CORD PROTECTION - Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where exit from the product.

12. NONUSE PERIODS - The power cord of the product should be unplugged from the outlet when not in use for long periods of time.

13. OUTDOOR ANTENNA GROUNDING - If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is
Important Safety instructions

(CONTINUED)

grounded so as to provide some protection against voltage surges and built-up static charges. Below diagram provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. See Figure 1.

![Antenna Grounding Diagram]

14. LIGHTNING - For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the product due to lightning and power-line surges.

15. POWER LINES - An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or other electric light or power circuits. When installing an outside antenna system, extreme care should be taken to keep from touching power lines or circuits as contact with them might be fatal.

16. OVERLOADING - Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.

17. OBJECT AND LIQUID ENTRY - Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.

18. SERVICING - Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

19. DAMAGES REQUIRING SERVICE - Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:

- a) When the power-supply cord or plug is damaged.
- b) If liquid has been spilled, or objects have fallen into the product.
- c) If the product has been exposed to rain or water.
- d) If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.
- e) When the product exhibits a distinct change in performance - this indicates a need for service.

20. REPLACEMENT PARTS – When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock or other hazards.

21. SAFETY CHECK – Upon completion of any service or repair to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.

22. HEAT – The product should be situated away from heat sources such as radiators, heat registers, stoves or other products (including amplifiers) that produce heat.

23. Keep minimum distances (5cm) around the apparatus for sufficient ventilation.

24. The ventilation should not be impeded by covering the rear panel for ventilation with items, such as newspapers, table-cloths, curtains, etc.

25. No naked flame sources, such as lighted candles, should be placed on the apparatus.

26. Don’t use the apparatus in tropical climates.

27. Where the mains plug is used as the disconnect device, the disconnect device shall remain readily operable.

28. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

29. Attention should be drawn to the environmental aspects of battery disposal. Don’t throw used batteries in dustbin. Please contact your retailer in order to protect the environment.

FCC Warnings
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.
Important Safety instructions

30. To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall not be placed on apparatus.

31. The battery (battery or batteries or battery pack) shall not be exposed to excessive heat such as sunshine, fire or the like.

32. The mains plug is used as disconnect device, the disconnect device shall remain readily operable.

34. ✴️ Correct Disposal of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the Sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

PRECAUTIONS

NOTES ON HANDLING:
When shipping the DVD player, always use the original shipping carton and packing materials. For maximum protection, repack the unit as it was originally packed at the factory.

Do not use volatile liquids, such as insect spray, near the DVD player. Do not leave rubber or plastic products in contact with the DVD player for a long time. They will leave marks on the finish.

The top and rear panels of the DVD player may become warm after a long period of use. This is normal and not a malfunction.

When the DVD player is not in use, be sure to remove the disc and turn off the power.

If you do not use the DVD player for a long period, the unit may not function properly in the future. Turn on and use the DVD player occasionally.

NOTES ON LOCATING THE DVD PLAYER:
When you place this DVD player near a TV, radio or VCR, the playback picture may become poor and the sound may be distorted. In this case, move the DVD player away from the TV, radio or VCR.

NOTES ON CLEANING:
Use a soft, dry cloth for cleaning
For stubborn dirt, soak the cloth in a weak detergent solution, wring well and wipe. Use a dry cloth to wipe it dry. Do not use any type of solvent, such as thinner and benzene, as they may damage the surface of the DVD player.

If you use a chemical-saturated cloth to clean the unit, follow that product's instructions.

Warning: Cleaning and adjustment of lenses and/or other components of playback mechanism should be performed by a qualified service technician.

TO OBTAIN A CLEAR PICTURE:
The DVD player is a high technology, precision device. If the optical pick-up lens and disc drive parts are dirty or worn down, the picture quality becomes poor. To obtain a clear picture, we recommend regular inspection and maintenance (cleaning or parts replacement) every 1,000 hours of use depending on the operating environment. For details, contact your nearest dealer.

NOTES ON MOISTURE CONDENSATION:
Moisture condensation damages the DVD player. Please read the following carefully.
Moisture condensation occurs, for example, when you pour a cold drink into a glass on a warm day. Drops of water form on the outside of the glass. In the same way, moisture may condense on the optical pick-up lens inside this unit, one of the most crucial internal parts of the DVD player.

Moisture condensation occurs during the following cases:

When you bring the DVD player directly from a cold place to a warm place.

When you use the DVD player in a room where you just turned on the heater, or a place where the cold wind from the air conditioner directly hits the unit.

In summer, when you use the DVD player in a hot and humid place just after you moved the unit from an air conditioned room.

When you use the DVD player in a humid place.

Do not use the DVD player when moisture condensation may occur.

If you use the DVD player in such a situation, it may damage discs and internal parts. Remove the disc, connect the power cord of the DVD player to the wall outlet, turn on the DVD player and leave it ON for two or three hours. After two or three hours, the DVD player will have warmed up and evaporated any moisture. Keep the DVD player connected to the wall outlet and moisture condensation will seldom occur.

BATTERY NOTICE

1. It is normal that battery will be empty after about half an hour in first use (battery is not full charged before delivery for safety reasons).
2. To charge battery please use original adapter, it will take about 2.5 hours to fully charge empty battery, full charged battery can continuously supply about 2.5 hours of play.
3. The playtime of the battery will decrease after it has been used over 300 times. This is normal for re-chargeable batteries.
4. Don't use or place player in high temperatures (under strong sunshine or in a very hot car), it may cause the battery to overheat, burn, disable or reduce the longevity. Avoid heavy static and magnetic fields, or it may cause damage.
5. If any unpleasant smells, abnormal overheating, colour or form changing to the outer casing and battery/chemical smells occur, stop using the device.
6. When battery is charging by adapter, playing disc is forbidden, please wait battery to get full charged.
7. If battery is full charged, it will automatically charge off.
8. The Car Adaptor could use for charging.
Control panel operation

1. **MUTE**: Press to turn off the sound and press again to resume the sound.
2. **SETUP**: Press to enter DVD system setup menu and press again to exit.
3. **Up / Tune- button**
   - Down / Tune+ button
   - Left / Fast rewind button
   - Right / Fast forward button
  **ENTER** : Press to confirm the operations.
4. **MENU**: Press to return to the disc's menu.
   - **VOL+** : Press to increase the volume.
   - **VOL-** : Press to decrease volume level.
   - **STOP** : Press once to pre-stop. Press twice to stop completely.
   - **PLAY/PAUSE** : Press to switch between play and pause.
5. **OPEN**: Press to open the DVD lid.
6. **SUB-T**: Press to display the subtitle.
7. **TITLE**: Press to display the DVD title menu.
8. **AUDIO**: Press to shift sound channel.
9. **REP**: Press to repeat a specified title, chapter, track or to repeat the entire disc.
10. **A-B**: Press to perform the point to point repeat function.

Virtual remote control operation

-During playback, press **SETUP** + **AUDIO** + **REPEAT** buttons to open virtual remote control on screen.
-Press ↑, ↓, ←, or → buttons to highlight options, and then press **ENTER** button to confirm selections as followings:

- **Search**: press ← or → buttons to choose figures for your desired programme, e.g., 09, 11, and then press **ENTER** to enter play mode.
- **OSD**: press to show the disc playback information. The information displayed may vary from disc to disc.
- **Angle**: press the **ANGLE** button repeatedly to switch between different camera angles available in the disc. This function may not be available on some discs.
- **Zoom**: press to zoom in or zoom out the image.
- **Step**: press to play the video step by step, and then press **II** button to resume normal playback.
- **Slow**: press the **SLOW** button to enter slow forward mode. There are 4 speeds available: 1/2, 1/4, 1/8 and 1/16. Press the **II** button to resume normal playback.
11. Phone jack  
12. Audio/video output jack  
13. Coaxial digital audio output  
14. Power on/off switch:  
   Slide to ON position to power on  
   Slide to OFF position to power off  
15. DC IN jack

**Disc Maintainance**

**Cleaning Discs**

- Do not touch the playback side of the disc.  
- Do not attach paper or tape to the disc.  

- Fingertips and dust on the disc cause picture and sound deterioration. Wipe the disc from the centre outwards with a soft cloth. Always keep the disc clean.  
- If you cannot wipe off the dust with a soft cloth, wipe the disc lightly with a slightly moistened soft cloth and finish with a dry cloth.  
- Do not use any type of solvent such as thinner, benzine, commercially available cleaners or antistatic spray. They may damage the disc.

**Storing Discs**

- Do not store discs in places subjected to direct sunlight or near heat sources.  
- Do not store discs in places subjected to moisture and dust such as a bathroom or near a humidifier.  
- Storing discs vertically in a case, stacking discs or placing objects on discs outside of their cases may cause warping.
Charging the Unit

The unit has a DC (DC = 7.4V), 1200mAh Li-ion rechargeable battery. Recharge it by the supplied AC/DC Adaptor as follows:

1. Connect the small plug on the supplied AC/DC Adaptor to the DC IN Jack on the unit.
2. Connect the AC/DC Adaptor to the wall outlet having AC 100-240V 50/60Hz.
3. During charging, the indicator will turn red.

NB: The AC/DC Adaptor is intended to be correctly orientated in a vertical or floor mount position.

Notes: Your battery will last longer if you follow these simple guidelines for caring for and storing it.

A. Recharge and store the device within the temperature range of 5°C~35°C (40°F~95°F).
B. Do not overcharge (longer than 24 hours). Excessive charging or discharging may shorten the battery's life.
C. Battery life naturally shortens slowly over time.

Using the Car Adaptor

CONNECT TO THE CIGARETTE LIGHTER SOCKET OF A VEHICLE THAT HAS A 12V BATTERY. IT IS NOT COMPATIBLE WITH A VEHICLE THAT HAS A 24V BATTERY.

This is a special negative grounded Car Adapter. Using this Car Adapter with a plus grounded car can cause malfunction.

Do NOT plug in the Car Adapter until the car ignition is turned on. Disconnect the Car Adapter from the cigarette lighter after use.

General Setup Page

- TV Shape: To set the aspect ratio of the screen to match the current movie.
- Angle Mark: To turn on/off the angle mark. When on, if multi-angle is available in the current disc. The angle mark will appear on the screen.
- Osd Lang: To set the language of on screen display.
- Captions: To turn on or turn off the captions.
- Screen Saver: To turn ON/OFF the screen saver. If set to on, when the disc stop playback couple minutes, the screen saver will appear on the screen.
- Last Memory: To turn ON/OFF the last memory. When set to on, if playback the current disc. It will start playback from the position where the disc was stopped last time.

Speaker Setup Page

- Downmix
  Set the rear audio channels to stereo (hearing the rear-left channel in Dolby 5.1 disc in left speaker; rear-right channel in right channel) or LT/Rt mode (hearing rear-right and rear-left channel in both right and left speakers).

- Digital out
  1. SPDIF OFF: Turn off the digital output
  2. RAW: The output is in original format of the disc.
  3. PCM: The output is encoded to PCM format.

Dolby Digital Step

- Dual Mono:
  Select and set the audio channels to play.

- Dynamic:
  Set the dynamic level or turn it off.

Video Setup Page:

- Picture:
  Set the picture quality of main unit.

- Video Out:
  Set the picture quality of the Video output signal through AV Out jack.
