**CAUTION TO THE USER:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there are no guarantees that interference will not occur in a particular installation. This equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**ATTENTION:** The lightning conductor should be connected with the bonding strip, within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

**WARNING:** INTERFERENCE, USE THE RECOMMENDED ACCESSORIES ONLY.

- Reorient or relocate the receiver.
- Reorient or move the equipment.
- Increase the separation between the apparatus and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**IMPORTANT SAFETY INSTRUCTION**

**WARNING:** INTERFERENCE, USE THE RECOMMENDED ACCESSORIES ONLY.

- Reorient or relocate the receiver.
- Reorient or move the equipment.
- Increase the separation between the apparatus and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**ATTENTION:** The lightning conductor should be connected with the bonding strip, within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

**OPERATING INSTRUCTIONS**

**Radio Operation**
1. Slide the FUNCTION SELECTOR to RADIO position to turn on radio.
2. Slide the BAND SWITCH to AM or FM as desired.
3. Turn the TUNING KNOB to receive the desired radio station.
4. Turn the VOLUME KNOB to adjust volume level.
5. When finished listening, slide the FUNCTION SELECTOR to TAPE position to turn off the unit.

**Antenna**
- AM - This unit has build-in ferrite rod antenna, which provide adequate reception in most areas. If reception is weak, turn the unit to improve reception.
- FM - The FM rod antenna is for FM reception only. If reception is weak, adjust the length and the angle of the antenna.

**PHONES Jack:**
For private listening, insert a Headphone/Earbud (Not included) into the PHONES Jack. The speaker will disconnect automatically.

**RECORDING**
1. Slide the FUNCTION SELECTOR to TAPE position.
2. Press the STOP/EJECT BUTTON to open the cassette door.
3. Insert a blank cassette tape in the slot on cassette door (Magnetic tape face up).
4. Make sure the erase prevention tab on the top of the tape has not cut off as figure below. Otherwise, the tape can't be used for recording.
5. Close the cassette door.
6. In stop mode. Press the REWIND or F.FWD BUTTON to select the location on the tape where to start recording then press the STOP Button to stop.
7. Press the RECORD BUTTON to start recording. Speak into the built-in microphone.
8. When finished. Press the STOP Button to stop recording and shut off the unit.

NOTE: To record the radio program, slide the FUNCTION SELECTOR to RADIO. Received the desired radio station as previously procedures then start to record as point 1-7 as above.

**Playback the recordings or music tape:**
1. In stop mode. Press the REWIND or F.FWD BUTTON to locate the section you want to play back then press the STOP/EJECT BUTTON to stop. Press the PLAY BUTTON to start playback.
2. Turn the VOLUME KNOB to adjust volume level as desired.
3. During playback, press the PAUSE BUTTON to pause, press again to resume normal playback.
4. When finished. Press the STOP/EFFECT BUTTON to stop playback and shut off the unit.

**Cleaning the unit**
- The finish on your unit may be cleaned with a dust cloth and cared for as other furniture. Use caution when cleaning and wiping the plastic parts.
- Periodic cleaning of the tape heads, capstan and pinch roller is necessary to maintain good sound reproduction. Clean them after every 100 hours of use or less if playback has deteriorated. Use a cotton swab moistened with head cleaning solution or isopropyl alcohol, then wipe dry with another swab.

NOTE: Never use metal objects on or near the tape heads. Do not allow any cleaning material to fall into the tape assembly.

**SPECIFICATIONS**
- **Frequency Range**: AM 530 – 1710 KHz
  - FM 88 – 108 MHz
- **Audio Power**: 500mW
- **Speaker**: 3 inch, 8 ohm, 0.5W
- **Power Source**: DC 6V, 4 x C size batteries (Not Included), Or AC 6V, 250mA through the AC IN Jack

**ACCESSORIES:**
- 1 x User’s Manual
- 1 x AC Adaptor (Input: AC 120V~ 60Hz; Output: AC 6V~, 250mA)

**SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE**
